

AN INNOVATIVE AGGREGATOR FOR CREATORS AND INVESTORS

WHAT DO WE DO?

PLATFORM FOR CREATORS

All you need is a great idea! **Create** your own project on the Casper Network without any programming skills thanks to our automated tools. Create and sell your NFTs on the CasperArmy Marketplace.

DAO

Have a **voice in decisions** regarding the development of the CasperArmy platform and have a say on the direction of developments for projects we incubate through **democratic voting**.

INCUBATOR

When creating a new project, our team will **provide** you with **support** in the following areas: business development, networking, legal advice, marketing, partnerships and community building. The community that decides to support an incubated project will be motivated by a system of rewards to support the project at all stages of its development.

VC & DAL

Invest with the community at the **seed stage** in new projects with relatively **small** capital. Distribute your tokens or NFTs automatically to investors using Decentralized Autonomous Launchpad.

TOOL AGGREGATOR

Use the Casper.army platform resources as an **aggregator** of essential **tools** on the Casper Network, including: Analytics Tools, Bridge, Swap, Dex, Liquidity Pools, Loans, OTC, Farming, Staking, NFT Marketplace **and more**.

WHAT PROBLEMS CAN WE SOLVE?

As the only **multipurpose** platform of its kind on the Casper network, we provide a relatively **low entry threshold** for participation in DAO and VC. We are the only one to provide tools to build projects easily, we support developers at every stage of development providing **assistance** in every area. Thanks to us, a strong Casper community can together have an **impact** on the outcome of projects.

WHY DO WE DO IT?

We believe that **community** plays a key role in project development. We provide a **safe platform** with a low financial entry threshold and **minimized** investment risk. A complex process of **verification** of creators and projects will ensure that the invested funds will not go to fraudulent projects. Thanks to these two aspects, the community will have an **equal chance** to decide about the projects created on the Casper network, while ensuring the **safety** of the financed funds.

HOW DO WE MAKE MONEY FROM IT?

As a **platform** we earn through various ways. Starting with **Call-Up Tickets**, through limited collections of **CasperArmyNFT**, the commission from our **validator**, to the % from fees for using the tools of the platform casper.army such as **Venture Capital Fund**, **marketplace**, **bridge**, **swap**, **loans** and more.

WHAT MAKES US DIFFERENT?

First incubator with VC and DAO on Casper Network. We enjoy the **trust** of the community. We place great emphasis on transparency, **security** of investors and solid **verification** of creators and projects.

Innovative approach to DAO management through the use of NFT (weighted keys).

An extensive **motivational system** for community members based on 7 metrics of their **engagement**.

High level of **security** and emphasis on full **transparency** of incubated projects to **protect** investors.

Full **support** at each stage of development for incubated projects and a platform aggregating the necessary **daily tools** for investors and network users.

ROAD MAP:

DONE

- Project concept and extensive documentation
- Developing Social Media and Website, CasperArmyNFT collection and Call-up Tickets
- Established Integration partnerships
- Platform elements including integration of bots on Telegram and Discord
- Node Validator and first delegators

**Q3/Q4
2022**

- Start of Call-Up Tickets Sales
- Partnerships and integrations
- Launch of key platform modules, including Marketplace, Bridge with the ability to transfer NFTs between networks
- Increase the scope of marketing activities

**Q1/Q2 2023 -
READY TO GO**

- First incubated projects
- Community reaches 50,000 real people
- Completed sale of CasperArmyNFT collection
- Launch of the full version of the platform

PRIVATE & VENTURE CAPITAL INVESTORS OFFER
